

Technical Data Sheet

Mr. TURBO Universal cleaner (RK 722)

Characteristics:

A highly active solution dissolving substances such as dried grease and many other contaminants on the same basis.

Fields of application:

Mr. Turbo universal cleaner is designed for heavily degreased and dirty places, such as the cleaning of fireplace glass, iron parts of fireplaces, stainless steel appliances & parts etc. The product is characterized by increased effectiveness and thus removes impurities very quickly. Mr. Turbo can further be used for cleaning old dried stains from vegetable and animal fats from glass and enamel surfaces cookers, grills etc.

Technical data:

appearance:	opalescent liquid
ph:	>12
solids:	4-6 wt%.
warranty:	12 months
storage:	+5 to +30 °C

Packaging: plastic container with a mechanical pump

Recommended use:

Mr. Turbo is applied with a mechanical sprayer by spraying an amount that adheres to the surface without running. After 5-10 minutes of exposure, the coating layer along with the dirt is washed using a sponge or cloth by dipping in warm water. When working with the product it is necessary to ensure that the product is not applied directly to absorbent and non-absorbent parts of the fireplace for example, from which the product cannot be removed as it's a possibility that it may stain.

Safety and health protection:

The product contains caustic soda. When handling and applying the product, it is recommended to use rubber gloves and eye protection. In case of eye contact, it is necessary to immediately rinse the eyes with cold water. Skin contact should be treated immediately by washing and by using regenerative cream. In more severe cases, it is necessary to see a doctor.
